

INDUSTRIAL PVC STRIP CURTAIN

**DOUBLE RIBBED PVC STRIP CURTAIN**

Double Ribbed PVC strip curtains are perfect for high-traffic areas with frequent vehicle movement, such as loading and unloading docks. Their ribbed surface resists scratches and impact, enhancing durability and extending lifespan. These curtains ensure clear visibility, smooth passage, and effective separation of work zones. They also help control dust, noise, and temperature, making them ideal for demanding industrial and commercial environments that require reliable and long-lasting solutions.

**FREEZER / POLAR PVC STRIP CURTAIN**

Freezer / Polar PVC strip curtains are specially engineered to perform in extremely low-temperature environments, such as cold storage rooms, walk-in freezers, and refrigerated warehouses. It help maintain consistent internal temperatures by minimizing cold air loss and reducing energy costs. They also act as a barrier against moisture, frost, and contaminants, while allowing safe and easy passage for personnel and equipment. This strip curtains offer excellent durability, visibility, and thermal insulation.

Model	Strip Width	Thickness	Roll Size
Double Ribbed	200mm & 300mm	3 mm & 5mm	50mtr
Freezer / Polar	200mm & 300mm	2 mm & 3mm	50mtr
